

Reduce employee commute impacts

For all the right reasons

By raising employee awareness about the benefits of sharing the ride or using active modes of transportation, you can contribute to a **healthier workplace** and community. Reducing vehicle trips means miles saved. **Every mile saved** contributes to **less traffic** congestion, less stress and cleaner air for all of us. Act now to engage your employees to support travel reduction... for all the right reasons.

Travel Reduction Program

 **3,793**

No. of TRP employees who reported using carpools

 **165**

No. of employers who participated in the TRP in 2022

 **22%**

Alternative mode use across the Tucson metro area

 **836,375**

Total vehicle miles saved by TRP participants in 2022¹

 **24.03 miles**

Average one-way commute in the Tucson metro area³

 **131,527**

No. of employees who work at TRP participating businesses

 **1,087,288**

Pounds of air polluting emissions saved²

 **373,317**

Average number of miles saved by a TRP employer in 2022

 **9.8%**

Amount of TRP employees who telework

How employees can reduce vehicle miles when traveling to work:

Share Rides: carpool, vanpool⁴

Try Transit: bus, streetcar, express buses

Exercise for Better Health: bike, walk

Adjust Work Schedule: telework, schedule a compressed work week

Take a positive step toward a healthier community by joining Pima Association of Governments' Travel Reduction Program.⁵ Contact MCarter@pagregion.com for details, and learn more about ridesharing opportunities at SunRideshare.org

¹ Pima Association of Governments' Travel Reduction Program (TRP) participants chose to carpool, use transit, or work a compressed or remote schedule to reduce their driving in 2022.

² In 2022, participating TRP companies recorded this savings from a reduction in vehicle miles traveled by employees. Fewer miles traveled helps reduce irritants that can contribute to childhood asthma, pulmonary issues in adults, and skin conditions such as eczema.

³ An employee who finds a way to avoid driving alone just one day a week can save up to 1,200 vehicle miles per year.

⁴ PAG offers subsidies for vanpools.

⁵ Employers within Pima County with more than 100 FTEs are required by local ordinances to join the TRP.
