AQS reports to EPAC on an as-needed basis and works on assigned key activities that need to be addressed. AQS evaluates regional compliance issues relating to the 1977 Clean Air Act; reviews and makes recommendations about air quality plans and proposals, such as non-attainment and maintenance area plans; and identifies air-related priorities and provides guidance on these issues to EPAC. Committee members are prohibited from interfering with administrative functions of the organization.

Pima Association of Governments is committed to maintaining high standards of conduct and prohibits harassment and retaliation against all employees pursuant to PAG's Policy Against Discrimination, Harassment and Retaliation.
