By promoting travel reduction among employees, employers can contribute to a healthier environment for everyone. Less traffic congestion leads to reduced vehicle idling and improved air quality. Pima Association of Governments' Travel Reduction Program (TRP) is available to assist you in reaching out to your workforce. Act now to encourage your employees to use alternative modes of transportation to make a difference.

TRAVEL REDUCTION IMPACTS

 **836,375**

Total vehicle miles saved by TRP participants in 2022¹

 **869,537**

Pounds of air polluting emissions saved²

 **373,317**

Average number of miles each TRP employer saved in 2022

BY THE NUMBERS

 **3,829**

TRP employees reported using carpools

 **160**

Employers who participated in the TRP in 2022

 **22%**

Alternative mode use across the Tucson metro area

 **148,995**

Employees work at TRP participating businesses³

 **12.09 miles**

Average one-way commute in the Tucson metro area⁴

 **9.8%**

Amount of TRP employees who telework

MAKE A DIFFERENCE IN YOUR COMMUTE

- Share the ride: carpool, vanpool
- Try transit: bus, streetcar, express buses
- Adjust work schedule: telework, schedule a compressed work week
- Exercise for better health: bike, walk
- Consider ridesharing for all your trips. social, community, sporting events, as well as shopping excursions and family activities.

¹ Pima Association of Governments' Travel Reduction Program (TRP) participants chose to carpool, use transit, or work a compressed or remote schedule to reduce their driving in 2022.

² In 2022, participating TRP companies recorded this savings from a reduction in vehicle miles traveled by employees. Fewer miles traveled helps reduce irritants that can contribute to childhood asthma, pulmonary issues in adults, and skin conditions such as eczema.

³ As of July 17, 2024

⁴ An employee who finds a way to avoid driving alone just one day a week can save up to 1,200 vehicle miles per year.

Data Source (unless otherwise noted): 2022 TRP Employer Survey, tracks transportation modes and miles

SunRideshare is a commuter assistance program of Pima Association of Governments (PAG), the region's designated air quality planning agency and manager of the region's Travel Reduction Program for participating employers. Learn more at SunRideshare.org.
